

BEYOND KNOWLEDGE*

2020

10th March 2016

LEARNINGFUTURE by 

AGENDA

Registration starts at 8:00am

AXA University, Ceylon Room 3 Lady Hill Road Singapore 258672

OVERVIEW

The 2020s will witness a workplace shift unlike any we have experienced in recent memory. Technology will continue to impact our lives and work; the cross-generational mix in the workforce will broaden yet again, potentially creating further diversity and bias challenges and the future of work itself may shift, as the workplace and workforce become progressively more dispersed and increasingly independent.

All these factors pose challenges for our organizations, leaders and managers as we head towards the 2020s workplace.

Our event will uncover these challenges, encourage collaboration on what can be done and provide concrete next steps to equip our leaders and managers of the near future for the road ahead.

AGENDA
